

# Connect

## Patient Portal

Dear Valued Patient:

We are committed to delivering the highest quality care to you, no matter where you see us. This commitment has led us to upgrade all of our campuses to the same Epic health record platform giving your providers the information they need to care for you. As part of this change myNYP users will start using the **Connect** patient portal to:

1. View test results
2. Manage appointments
3. Pay bills
4. Contact your doctor's office
5. See records and summaries of your visits
6. Have a visit by video with your doctor
7. See information from visits across Weill Cornell Medicine, ColumbiaDoctors, NewYork-Presbyterian Hospital, and other healthcare organizations

You may already have a Connect account from a previous visit to one of our facilities. You can sign in to see the current information available or new users can sign up at any time by visiting [www.myconnectnyc.org](http://www.myconnectnyc.org). The upgrade will be completed on October 2, 2020.

This exciting change means better care and a better patient experience for you. Thank you for your understanding and patience as we move to Epic, and for trusting us with your care. Your health and safety are always our top priority.

Sincerely,

The doctors, nurses and staff of Weill Cornell Medicine, NewYork-Presbyterian, and Columbia University Irving Medical Center.
