

# [All users] – [Rover – Voice]

Revision Date: 01/17/2020

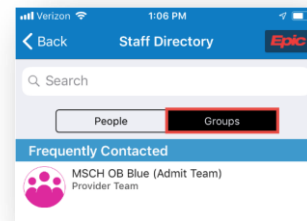

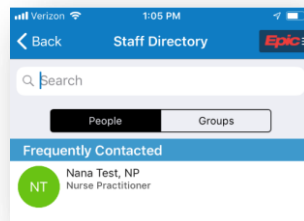

Rover leverages Cisco Jabber to make voice calls via treatment team or the staff directory. The Staff Directory in Rover helps users find any provider at your organization and see their name, specialties, and contact information.

## Try It Out

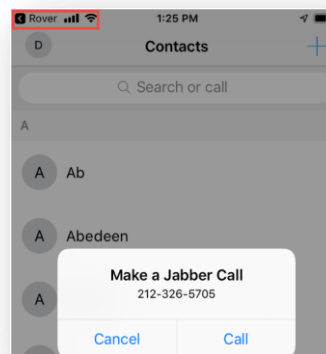

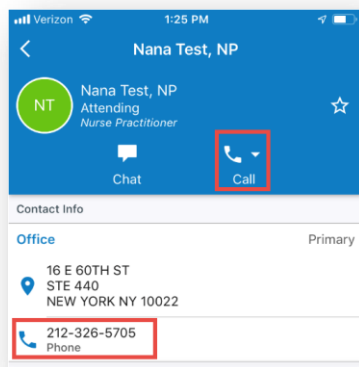

1. To make a call from the staff directory, click  in the top right corner and click  to open staff directory.

- From there, click . Tap **people** to search an individual to call or click group to see who is signed into a provider team/contact to call.

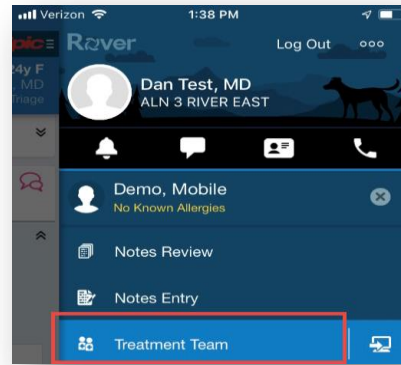

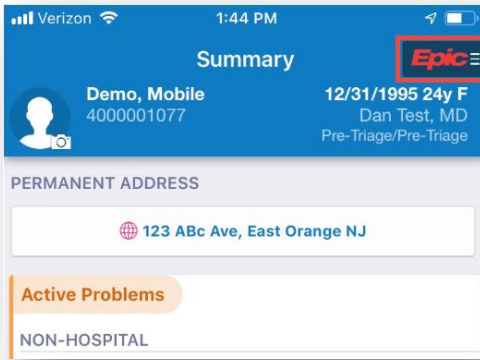

- Click  212-326-5705 Phone or  to launch Jabber call. Click  to go back to Rover.
