**Course ID:** ECSTS132ILT

- Live Virtual Training Course Length: 3 hours
- Online Learning Length (eLearning and Recorded Lessons): 3.5 hours

**Course Description:**
During the outpatient Psychiatry class, the Psychiatrist will see the differences between a quick office visit and full standard office visit. This includes how to find and review patient data, manage orders, write notes, and select charges. Psychiatrist will learn how to admit a patient from the clinic and will review use of the In Basket as an Epic communication tool. Care Everywhere to access patient information from outside organizations is also covered. During this, you will also learn how to personalize the Epic system and clinical content for your specialty.

- **Optional eLearning Lessons:** Not applicable
- **Required eLearning Lessons:**
  - MD103 – Finding Patient Information
  - CLN055 – Overview of Writing Notes
  - MD105A – Introduction to the Problem List
  - MD105B – Introduction to Patient History
  - AMB001 – Physician-Nurse Office Visit Demonstration
  - MDAMB106 – Writing Notes for Office Visits
  - MDAMB107 – Ordering in an Outpatient Context
  - MDAMB112 – Documenting a Straightforward Visit with Express Lane
  - MDAMB104 – Wrapping Up a Visit
  - MDAMB109 – Introduction to Communication Workflows
  - ONC070 – Overview of Therapy Plans
  - MD108 – Overview In Basket
- **Recorded Lessons:**
  - Care Everywhere
