Welcome to Training

Colleagues,

With Epic, each patient’s story will reside in a single electronic record. Having ambulatory, inpatient, and perioperative information all in one place will dramatically enhance the way we practice medicine at Weill Cornell Medical Center. Columbia, Weill-Cornell, and NewYork-Presbyterian are working together to better track our patients from visit to visit for a more holistic view of their health. This change will have a profound impact on how our clinicians collaborate, improve communication between providers and patients, and enhance access to health information.

Implementing Epic is a massive undertaking, which requires not only a financial investment, but a substantial commitment of time and focus from each organization. The depth of knowledge and commitment of our colleagues is invaluable in this effort. We want to express our sincere appreciation to you as we implement new processes through this system. Through this challenging and transformative process, we are improving the patient experience, advancing the quality of patient care, and increasing our efficiency.

As we move into this important phase of the Epic project, we are reminded of our Guiding Principles. Revamping workflows and learning new technology will bring about significant change for our enterprise. This transition will not be an easy one, but we have committed to change for the long-term benefits we anticipate for all.

Education is a fundamental pillar of our mission, and to support the needs of our users, robust readiness and training programs will educate our clinicians and staff on the new work processes and technology, to ensure that everyone is ready to make the leap to the new system on Day 1.

Our training curriculum blends e-learning and in many cases, live virtual instruction. Training is role-based, with specific courses for clinicians, nurses, rehab therapists, case managers, pharmacists, registrars, schedulers, and charge entry/billing personnel, to name a few. Assignments and class attendance will be tracked using the Saba learning management system to ensure that everyone is ready to use Epic.

If you have any questions about the pages that follow, we’re here to help. Key contacts are listed in the introduction section of this catalog. These knowledgeable team members can guide you to the correct training programs and assist with the Saba learning management system.

For now, we want to personally acknowledge our enthusiasm for this transformation as well as our gratitude for the important role that each of you plays in taking care of our patients. We look forward to continuing to work with you as we transform the way we deliver care at Columbia, NewYork-Presbyterian, and Weill Cornell Medicine.

Respectfully,
Adam D. Cheriff, MD
Chief Medical Information Officer, Weill Cornell Medicine
Chief of Clinical Operations
Weill Cornell Medicine Co-Lead, EpicTogether

Irene Louh, MD, PhD.
Associate Chief Medical Officer, NewYork-Presbyterian
Assistant Professor of Medicine at CUIMC
Overview

The EpicTogether team, in conjunction with Epic and SMEs from each institution, designed over two-hundred and forty role-based training programs on the electronic health record (EHR) system to prepare staff for go-live. The training programs, called training tracks, take a blended approach to learning, consisting of e-learning, live virtual instruction, and self-paced practice prior to go-live.

Our Commitment

In designing and delivering training programs to prepare staff from Columbia University, NewYork-Presbyterian, and Weill-Cornell Medicine for the Epic go-live, we commit to:

1. Provide world class training to every staff member.

2. Celebrate diversity and inclusion in our classrooms and demonstrate cultural competence in our work.

3. Encourage open dialogue and take ownership of concerns, reporting back on discoveries made and outcomes achieved.

4. Evaluate our progress and that of our learners and adapt to changing needs for the improvement of the programs we deliver.

Essentials for Access

All staff who require access to the electronic health record must complete the following activities in order to receive system access:

1. Complete all e-learning courses ahead of live virtual training within his or her assigned training track.

2. Complete all live virtual training, including system personalization within the assigned training track.

3. Complete assessments within the assigned training track when viewing the recorded lessons, a score of 80% or higher is required to pass.
Overview

The Epic Course Catalog is designed to assist managers and staff in identifying the appropriate training track(s) to attend. A training track is the complete series of educational activities required for a given role to prepare them to use Epic. Every member of our institutions who will use Epic for their daily work must complete a corresponding training track. There are two main components in this catalog to pay close attention to: Training Track Diagrams and Course Information Boxes, both are explained below.

Training Track Diagrams

A training track diagram is a visual representation of the sequence of courses for a staff member to complete their training track. In the following example, the Anesthesia Provider has several educational activities required to complete the training track. First, pre-requisite online learning (eLearning and Recorded Lessons) must be completed ahead of attending the ECSTS103ILT: Anesthesia Provider live virtual training course. The ECSTS103ILT: Anesthesia Provider live virtual training course must not be taken before completing the pre-requisite online learning activities in Saba (the NYP Learning Center). After the completion of the ECSTS103ILT: Anesthesia Provider live virtual training course the training track is completed.

The Audience listed below the training track name indicates what roles the training is designed for. It’s important to note that advanced practitioners and GME also attend the same training as attending providers.

### Anesthesia Provider

<table>
<thead>
<tr>
<th>Audience: All Anesthesia Providers (MD, Fellow, Resident, CRNA)</th>
</tr>
</thead>
<tbody>
<tr>
<td>1. Pre-Requisite Online Learning (eLearning and Recorded Lessons)</td>
</tr>
</tbody>
</table>

**Anesthesia Provider Training Track Diagram**
Course Information Boxes

You learned that training track diagrams outline all of the steps learners must complete in order to be fully trained on Epic for their role and to receive access to the system. The Course Catalog also includes **Course Information Boxes** which provide additional detail on each course offered, including a description, course length, and the online learning pre-requisites for the course. In the following example, the Anesthesia Provider Course Information Box specifies the following key details:

- **Course ID**: This ID corresponds to the course in the Saba Learning Management System; it assists you in finding the course when using the search or filters available in Saba.
- **Course Length**: The course length specifies the length of the live virtual training course.
  - Note: This does not account for the length of pre-requisite online learning (eLearning and Recorded Lessons) (see Online Learning Length below).
- **Online Learning Length (eLearning and Recorded Lessons)**: The online learning length specifies the length of all pre-requisite online learning activities (eLearning and Recorded Lessons) that must be completed before attending the live virtual training course.
- **Course Description**: The description below Course Length provides key topics taught during the live virtual training course.
### Anesthesia Provider Training Track Diagram

#### Course Description:
In this course, you will learn how to get through the essentials of anesthesia workflow, including preprocedure, intraprocedure, and postprocedure. You’ll also learn how to document floor procedures, labor consents and epidurals, pre-surgical blocks, monitor concurrent cases, and order blood. You will also learn how to personalize the Epic system and clinical content for your specialty.

</tr>
</thead>
<tbody>
<tr>
<td>Live Virtual Training Course Length: 3 hours</td>
<td>Online Learning Length (eLearning and Recorded Lessons): 4 hours</td>
</tr>
</tbody>
</table>

#### Optional eLearning Lessons:
- MD100 - Overview of Hyperspace
- MD103 - Finding Patient Information
- MD105A - Introduction to the Problem List
- MD106 - Overview of In Basket

#### Required eLearning Lessons:
- ANE001 - Introduction to Anesthesia Preprocedure
- ANE002 - Introduction to Anesthesia Intraprocedure
- ANE003 - Introduction to Anesthesia Postprocedure
- ANE005 - Close Anesthesia Encounters
- ANE024 - Introduction to Anesthesia Floor Procedures
- ANE025 - Introduction to Anesthesia Labor and Delivery
- ANE028 - Introduction to Anesthesia Ordering Tools
- ANE029 - Pre-Admission Testing Evaluation
- MD106A - Introduction to Patient History
- MD/PHP105 - EpicCare Inpatient: Finding Patient Information
- MD/PHP104 - Overview of Transfer Center for Physicians
- MD/PHP105 - EpicCare Inpatient Problem List
- MD/PHP107A - EpicCare Inpatient: Managing Orders
- MD/PHP107C - EpicCare Inpatient: Phase of Care
- OB001 - Overview of the L&D Grease Board

#### Recorded Lessons:
- Sign In
- Hand Off
- Care Everywhere
- DMR/DWI
- Preprocedure
- Intraprocedure
- Intraoperative
- Postprocedure
- Labor and Delivery
- Floor Patients
- Inpatient Acute Pain
Q: Is training required?
A: Yes. All users of the Epic system, more than 16,000 in all for the second go-live, will require formal Epic training in order to receive access to the Epic electronic health system. Most members of our organization, and the vendors we work with, will have formal training with online learning components. All items listed in a training track diagram are required to be completed in the order they appear. Select roles from Weill Cornell Medicine, that already use Epic in their daily work, may only require job aids to transition to the new system.

Q: When does registration begin?
A: Training registration for clinical and administration staff begins on June 1st, 2020. The Saba Learning Management System is used for training registration, online learning, assessments and training evaluations.

Q: What are the training dates?
A: Live virtual classes kick-off on August 24th, 2020, for the East Campus go-live. Classes will conclude by October 30th, 2020, ahead of the October 31st go-live date.

Q: Where is classroom training held?
A: Classroom training will not be conducted for this go-live as a preventative measure resulting from the COVID-19 pandemic. All training will be conducted virtually using the Saba learning management system to deliver and track the training activities.

Q: Who will train my class?
A: Courses requiring live virtual training will be conducted by Credentialed Trainers, who have gone through an extensive 6 week onboarding program to become experts in their designated application.
Q: Do I need to complete all of the training events I see listed in Saba for my assigned Epic training program?

A: Yes, all activities within your Epic training program are mandatory, unless an item indicates that it is optional.

Q: When will I take my prerequisite e-learning lessons?

A: E-Learning lessons are assigned to you in the Saba Learning Management System and need to be completed ahead of the recorded lessons assigned to you. For curricula requiring a live virtual training session, the prerequisites must be completed prior to attending class. **You will login to Saba with your CWID and associated password.**

Q: What equipment will I need to watch the e-learning lessons?

A: E-Learning lessons are online learning modules that contain some level of interactivity, audio, and quizzing elements. As such, you will need a computing device with a mouse or touch area, a keyboard, and the ability to wear headphones for audio narration or turn on closed captioning. You are encouraged to use Google Chrome as the preferred web browser for Saba.

Q: What do I do if I have difficulty playing the e-learning courses assigned to me?

A: If you experience issues with e-learning lessons not playing, freezing, or not completing in Saba, please open a ticket with the Service Desk at 212-746-4357.

Q: What do I do if I need to change the date of my live virtual training class?

A: You have the ability to cancel and reschedule the date of your live virtual training class in Saba.

Q: What do I need to bring to my live virtual training class?

A: Aside from curiosity and enthusiasm, you should plan to bring a writing instrument and paper to take notes, and headphones to connect to your computer or phone to hear the audio from the session.
Q: What are Super Users?

A: A Super User provides operational support during the Epic go-live. Super Users answer end-user questions, assist the EpicTogether project by helping users at-the-elbow during go-live, and serve as liaisons between end-users and the EpicTogether project. The Super User’s support assignment will take place during and immediately following go-live. Please consult the Epic Super User Assignment Description available on www.epictogetherny.org.

Q: Am I able to practice what I have learned after class?

A: Yes! A special Epic environment is created for you to use for practicing workflows and reviewing concepts, we call it Playground. The Playground environment is available on clinical and administrative workstations through Citrix. Information about the Playground environment is available on www.epictogetherny.org. You will have access to an Exercise Booklet, Quick Start Guides, and Tip Sheets that you can use with the Playground environment.

Q: Will I receive access to Epic once I complete my classes?

A: When receiving training and practicing concepts, you will use a training username and password to access an Epic training environment. You will be able to test your Epic security ahead of go-live during an activity call a Login Lab. Details regarding Login Labs will be provided by the EpicTogether Security Team. Your login credentials for Epic will be your CWID and associated password.

Q: Who should I contact if I have questions?

A: Please e-mail us at epictogethernytraining@nyp.org.
Invasive Charge Entry

Audience: Users who complete Charge Entry for Invasive Cardiology procedures

1. Pre-Requisite E-Learning Courses
2. Invasive Charge Entry: Recorded Lessons
   - Training Track Complete

Invasive Charge Entry

<table>
<thead>
<tr>
<th>Course ID: ECCAR110RL</th>
<th>Prerequisites: ECCAR110WBT</th>
</tr>
</thead>
<tbody>
<tr>
<td>Recorded Lessons Length: 3 hours</td>
<td>E-Learning Length: 38 minutes</td>
</tr>
</tbody>
</table>

**Course Description:**
In this course Invasive Charge Entry Users will learn how to find unposted logs, review and edit procedure documentation and review documentation driven charges. You will also learn how to add one time supply charges and how to post/addend a log.

- E-Learning: CLNAMB001 Overview of Hyperspace in an Outpatient Setting
- E-Learning: CAR002 Invasive Cardiology Workflow Overview
- E-Learning: CAR053 Overview of Invasive Charge Entry
- E-Learning: CAR050 Overview of Report Settings
- E-Learning: CAR054 Overview of the Procedure Log
# Invasive Documenter

**Audience:** Staff who is responsible for ONLY intraprocedure documentation

### Invasive Cardiology Manager

<table>
<thead>
<tr>
<th>Course ID: ECCAR108RL</th>
<th>Prerequisites: ECCAR108WBT</th>
</tr>
</thead>
<tbody>
<tr>
<td>Recorded Lessons Length: 3 hours</td>
<td>E-Learning Length: 48 minutes</td>
</tr>
</tbody>
</table>

**Course Description:**
In this course Invasive Managers will learn how to use their dashboard to generate department statistics. You will also learn how to correct documentation errors, resolve incomplete work, and edit cases.

The Invasive Cardiology Manager should also attend the Invasive Nurse Training Track:

- Course: Invasive Nurse
- E-Learning: CLNAMB001 Overview of Hyperspace in an Outpatient Setting
- E-Learning: RAD056 Overview of the Manager Dashboard
- E-Learning: CAR053 Overview of Invasive Charge Entry
- E-Learning: RPT005 Run and Manage Reports
- E-Learning: CAR050 Overview of Report Settings
- E-Learning: CAR002 Invasive Cardiology Workflow Overview
Invasive Nurse

**Audience:** Cath Lab Nurses, EP Nurses, TEE/ Tilt table Nurses in Invasive areas

<table>
<thead>
<tr>
<th>Pre-Requisite E-Learning Courses</th>
<th>Invasive Nurse: Live Virtual Training</th>
<th>Training Track Complete</th>
</tr>

<th>Instructor-Led Course Length: 6 hours</th>
<th>E-Learning Length: 38 minutes</th>
</tr>
</thead>
<tbody>
<tr>
<td>Prerequisites: ECCAR107WBT</td>
<td></td>
</tr>
</tbody>
</table>

**Course Description:**

In this course, Invasive Cardiology Nurses will learn how to find patients using status boards, and update their status. They will also learn how to document performing preprocedure and postprocedure care, including transferring and discharging patients. Nurses will also learn how to manage the schedule using the snapboard and how to document TEE cases using a narrator in the even they are performed in the invasive location. If an invasive nurse also performs intraprocedure documentation, they will also need to take the Invasive Documenter training track.

- E-Learning: CLNINP001 Overview of Hyperspace in an Inpatient Setting
- E-Learning: CAR002 Invasive Cardiology Workflow Overview
- E-Learning CLN058 Overview of a Navigator
- E-Learning: OR110 Finding Patients and Beginning Charting
- E-Learning: RAD053 Overview of a Narrator
Invasive Scheduler

**Audience: Staff who schedules Invasive Cardiology cases**

1. Pre-Requisite E-Learning Courses
2. Invasive Scheduler: Recorded Lessons

Training Track Complete

---

**Course ID:** ECCAR106RL  
**Prerequisites:** ECCAR106WBT

<table>
<thead>
<tr>
<th>Recorded Lessons Length: 3 hours</th>
<th>E-Learning Length: 32 minutes</th>
</tr>
</thead>
</table>

**Course Description:**
In this course Invasive Schedulers learn how to create, edit, cancel, schedule and reschedule invasive cases. They will also learn how to enter cases with multiple providers, and multiple procedures.

- E-Learning: GEN006 Overview of Hyperspace for Revenue and Access Products
- E-Learning: CAR052 Intro to Case Creation
- E-Learning: OR053 Overview of the Schedule
- E-Learning: CAR002 Invasive Cardiology Workflow Overview
Non-Invasive Cardiology Manager

**Course ID:** ECCAR105RL  
**Prerequisites:** ECCAR105WBT

<table>
<thead>
<tr>
<th>Recorded Lessons Length: 2 hours</th>
<th>E-Learning Length: 46 minutes</th>
</tr>
</thead>
</table>

**Course Description:**
In this course Non-Invasive Managers will learn how to use their dashboard to generate department statistics. You will also learn how to correct documentation errors, and resolve incomplete work.

The Non-Invasive Cardiology Manager should also attend the track of the staff they supervise.

- E-Learning: CLNAM8001 Overview of Hyperspace in an Outpatient Setting
- E-Learning: RAD056 Overview of the Manager Dashboard
- E-Learning: RAD450 Overview of Charge Capture Workflows
- E-Learning: RPT005 Run and Manage Reports
- E-Learning: CAR050 Overview of Report Settings
- E-Learning: CAR001 Non-Invasive Cardiology Workflow Overview
## Non-Invasive Nurse

### Audience: Non Invasive Procedural Cardiology Nurses

<table>
<thead>
<tr>
<th>Prerequisites: ECCAR104WBT</th>
</tr>
</thead>
<tbody>
<tr>
<td>Instructor-Led Course Length: 4 hours</td>
</tr>
</tbody>
</table>

**Course Description:**
In this course Non-Invasive nurses learn how to document exams both with and without sedation using navigators and narrators.

- E-Learning: CLNAMB001 Overview of Hyperspace in an Outpatient Setting
- E-Learning: CAR050 Overview of Report Settings
- E-Learning: RAD051 Introduction to Ancillary Orders
- E-Learning: RAD054 Overview of the Technologist Work List
- E-Learning: RAD053 Overview of the Narrator
- E-Learning: CLN058 Overview of a Navigator
- E-Learning: CAR001 Non-Invasive Cardiology Workflow Overview
Non-Invasive Scheduler

Audience: Schedulers who schedule procedural cardiology appointments

1. Pre-Requisite E-Learning Courses
2. Non-Invasive Scheduler: Recorded Lessons
   ✔ Training Track Complete

Non-Invasive Scheduler

Course ID: ECCAR103RL
Prerequisites: ECCAR103WBT

Recorded Lessons Length: 4 hours
E-Learning Length: 28 minutes

Course Description:
In this course Non-Invasive Schedulers learn tasks related to and unique to procedural cardiology appointments such as: entering orders for diagnostic procedures, scheduling and checking in appointments for future patients, and canceling and rescheduling appointments. If Non-Invasive Schedulers also schedule other types of appointments, are involved in registration, and perform other duties, appropriate Cadence trainings may be needed.

- E-Learning: CLNAMB001 Overview of Hyperspace in an Outpatient Setting
- E-Learning: RAD051 Introduction to Ancillary Orders
- E-Learning: CAR050 Overview of Report Settings
- E-Learning: CAR001 Non-Invasive Cardiology Workflow Overview
## Non-Invasive Technologist- Echo/Vascular

**Audience:** Non-Invasive Technologists who work with Echos and Vascular Studies

<table>
<thead>
<tr>

<tbody>
<tr>
<td>Instructor-Led Course Length: 8 hours</td>
<td>E-Learning Length: 30 minutes</td>
</tr>
</tbody>
</table>

**Course Description:**
In this course, you learn how to begin your shift, review the chart, plan for discharge, and coordinate continued care and services. You will learn how to perform patient discharge workflows and how to contribute to discharge documentation. Additionally, you will learn how to document group therapy, treatment plans/safety plans, and assessments.

- E-Learning: CLNINP001: Overview of Hyperspace in an Inpatient Setting
- E-Learning: INP061: Documenting in Flowsheets
- E-Learning: INP073 Document on the Care Plan
- E-Learning: INP067 Nurse Reviewing the Chart
- E-Learning: ROV150: Overview of Inpatient Care with Rover
### Case Manager

<tbody>
<tr>
<td>Instructor-Led Course Length: 8 hours</td>
<td>E-Learning Length: 30 minutes</td>
</tr>
</tbody>
</table>

**Course Description:**

In this course, you learn how to begin your shift, review the chart, plan for discharge, and coordinate continued care and services. You will view how to manage orders, prepare a patient for discharge, and how to contribute to discharge documentation. You will learn how to complete a utilization review, communicate with Payors and collect Auth/Cert information. In class, you will see how to manage avoidable and denied bed days/night and monitor patient class. Lastly, you will review and run reports.

- E-Learning: CLNINP001: Overview of Hyperspace in an Inpatient Setting
- E-Learning: INP061: Documenting in Flowsheets
- E-Learning: INP067 Nurse Reviewing the Chart
- E-Learning: ROV150: Overview of Inpatient Care with Rover
# Evaluation Center RN/Social Worker

</tbody>
</table>
Course ID: ECDEN100ILT
Instructor-Led Course Length: 3.5 hours

E-Learning Length: 1.78 hours

**Course Description:**
In this course you will learn how to get through the essentials of both routine and full-treatment office visits, including reviewing the chart, documenting problems and diagnoses, documenting dental findings and periodontal measurements, writing notes, and selecting procedures in the Treatment Plan activity. You'll also review In Basket and see how to follow up on common messages.

E-Learning:
- CLN055: Overview of Writing Notes
- MD001: Introduction to Epic Training
- MD100: Overview of Hyperspace
- MD103: Finding Patient Information
- MD105B: Introduction to Patient History
- MD108: Overview of In Basket
- MDAMB104: EpicCare Ambulatory: Wrapping Up a Visit
- MDAMB106: EpicCare Ambulatory: Writing Notes for Office Visits
- MDAMB107: EpicCare Ambulatory: Ordering in an Outpatient Context
- MDAMB109: Introduction to Communication Workflows
- WSD001: Using the Tooth Chart
Dental Scheduler

**Audience: All staff that schedule dental appointments**

1. Pre-Requisite E-Learning Courses
2. Dental Scheduler: Live Virtual Training

</tr>
</tbody>
</table>

### Course ID: ECHIM103ILT

**Course Description:**
In this course learners are taught the basics of coding accounts and coding follow-up. The coder will learn the process required to appropriately research an account for accurate coding, create and send queries to clinicians, also resolve queries for missing documentation. The coder uses a third party encoder to calculate the Diagnosis Related Group on inpatient accounts in order to determine the appropriate reimbursement. Additionally, learners will be taught the claims creation process and how to identify when claims processing has occurred in the revenue cycle, also how to review HIM claim edits and denials. Learners will understand how to execute advanced coding workflows and ED charging. Additionally, users will learn how to communicate with billers about coding-related errors and route accounts to registration staff for review.

**Prerequisites:** ECHIM103WBT

<table>
<thead>
<tr>
<th>Instructor-Led Course Length: 5.5 hours</th>
<th>E-Learning Length: 40 minutes</th>

Simple Visit Coding

**Course ID:** ECHIM100RL  
**Prerequisites:** ECHIM100WBT

<table>
<thead>
<tr>
<th>Recorded Lessons Length: 1 hours</th>
<th>E-Learning Length: 25 minutes</th>
</tr>
</thead>
</table>
| **Course Description:**  
The Simple Visit Coding (SVC) process automatically codes accounts for Labs, Recurring therapies, Radiology, and other outpatient depts. by pulling diagnoses entered upstream by Reg/clinical staff. If the validated checks run and errors are discovered, they must be corrected prior to the account processing for billing. This course teaches our learners how to locate the accounts that failed the validation checks and take the steps required in order to fix the inaccuracies and enable accounts to process for payment. |
| E-Learning: GEN006 Overview of Hyperspace for Revenue and Access Products |
| E-Learning: HIM018 Coding an Account |
| E-Learning HIM101 Overview of Workqueues for HIM |

### Oncology Clinic Nurse

**Course ID:** ECONC101ILT  
**Prerequisites:** ECONC101WBT

- Instructor-Led Course Length: 9 hours  
- E-Learning Length: 4 minutes

**Course Description:**

In this course, you will learn about oncology-specific documentation and chemotherapy treatment plans in Epic. Reviewing the multi-provider schedule, Springboard report, rooming a patient, documenting visit, oncology assessments and toxicity.

Further, you will learn how to manage treatment plans, review prior authorization for chemotherapy treatment and scheduling infusion visits and wrap up documentation.

- E-Learning: ONC071 Overview of Therapy Plans – Nurse
- Refer to EpicCare Ambulatory Nurse Shared (RN, LPN, MA) for list of additional E-Learnings.
Oncology Infusion Nurse

**Audience:** All RNs who administer chemotherapy plans

- [ ] Pre-Requisite E-Learning Courses
- [ ] Oncology Infusion Nurse: Live Virtual Training
- [X] Training Track Complete

---

**Course ID:** ECONC102ILT

**Prerequisites:** ECONC102WBT

**Instructor-Led Course Length:** 7.5 hours

**E-Learning Length:** 1 hour

**Course Description:**
In this course, you will learn about documenting a chemotherapy infusion visit in Epic. This includes: how to find patients on the schedule, using the Springboard report to review patient data, Pre-Treatment Prep, basic charting, release pre-treatment and treatment medication orders, Chemotherapy IV Infusion med administration. Further, you will learn how about Oncology documentation, Assessments, Patient History, and Toxicity Assessment.

**Prerequisites:**
- E-Learning: ONC071 Overview of Therapy Plans – Nurse
- E-Learning: ROV002 or ROV003 Administer Medications Using Rover for iOS or Android
- E-Learning: ROV004 or ROV005 Document in Flowsheets Using Rover for iOS or Android
- E-Learning: ROV 150 Overview of Inpatient Care with Rover
- E-Learning: MD108 Overview of In Basket
- E-Learning: AMB515 In Basket: Handling Refill Requests
- E-Learning: AMB520 In Basket: Telephone Encounters
- E-Learning: AMB525 In Basket: Following up on Results Messages
- E-Learning: MYC003 Activating Patients for MyChart
Inpatient Oncology Nurse (Adult Med Surg Path)

### Adult Med Surg Nurse

**Course ID:** ECCLN103ILT  
**Prerequisites:** ECCLN103WBT

**Instructor-Led Course Length:** 9 hours  
**E-Learning Length:** 3 hours  

**Course Description:**
In this course, you will learn how to begin your shift, review the chart, and get report. You will document vitals and assessments, administer medications, collect specimens from Hyperspace and Rover. You will learn how to admit a patient from the ED, manager orders, administer IV medications, document on the care plan and patient education and end your shift. As a continuation of the Adult Med Surg course, you will learn how to arrive a transfer patient, administer blood products, administer complex medications and discharge a patient.

- E-Learning: ADT061 Overview of the Unit Manager
- E-Learning: CLNINP001 Overview of Hyperspace in an Inpatient Setting
- E-Learning: INP061 Documenting in Flowsheets
- E-Learning: INP062 Administering Medications on the MAR
- E-Learning: INP063 Nurse Writing Notes
- E-Learning: INP065 Nurse Managing Orders
- E-Learning: INP067 Nurse Reviewing the Chart
- E-Learning: INP069 Nurse Specimen collection
- E-Learning: INP072 Use the Admission Navigator
- E-Learning: INP073 Document on the Care Plan
- E-Learning: INP074 Document Patient Education
- E-Learning: INP075 Document Infusion Volume
- E-Learning: INP084 Overview of the Brain
- E-Learning: INP085 Managing LDAs Using the Avatar
- E-Learning: INP160 Documenting IV Fluids and Medication Drips
- E-Learning: INP161 Administering Blood Products
- E-Learning: INP162 Advanced Medication Administration on the MAR
- E-Learning: INP163 Validating Monitor Data
- E-Learning: ROV002 Administer Medications Using Rover
- E-Learning: ROV004 Document in Flowsheets Using Rover
- E-Learning: ROV150 Overview of Inpatient Care with Rover

- E-Learning: INP162 Advanced Medication Administration on the MAR
- E-Learning: RDR101 Introduction to Radar
- E-Learning: RPT005 Run and Manage Reports
- E-Learning: ROV004 Document in Flowsheets Using Rover
- E-Learning: ROV150 Overview of Inpatient Care with Rover
Dialysis Nurse

**Course ID:** ECCLN105ILT  
**Prerequisites:** ECCLN105WBT

**Instructor-Led Course Length:** 5.5 hours  
**E-Learning Length:** 2.86 hours

**Course Description:**
In this course, you'll learn how to begin your shift, manage the schedule, prepare for treatment, collect specimens and begin treatments. You will learn administration of medications, blood products, how to manage orders and how to complete the patient treatment. You will also learn how to treat patients at the bedside as well as outpatients.

- E-Learning: CAD053 Overview of the Snapboard
- E-Learning: CLINIP001 Overview of Hyperspace in an Inpatient Setting
- E-Learning: INP061 Documenting in Flowsheets
- E-Learning: INP062 Administering Medications on the MAR
- E-Learning: INP063 Nurse Writing Notes
- E-Learning: INP065 Nurse Managing Orders

</table>

**Course Description:**
In this course, you will learn how to:

- Understand and practice how to access and navigate within Hyperspace.
- Review information in the Summary activity. Review various types of test results, notes in the Chart. Review visit documentation, and medications, as well as other grouped types of information.
- Find an existing patient using Patient Station and schedule a patient. Register a new patient.
- Understand Sign In and Check In workflows.
- Register a patient at check in.
- Transcribe orders for an out-of-network patient.
- Register and schedule appointments for walk in patients.
- Schedule an appointment for a walk in patient.
- Use Requisition Entry to enter information from a submitting organization. Learn to follow

- E-Learning: Overview of Hyperspace in an Inpatient Setting (CLNINP001)
- E-Learning: Receiving Specimens (LAB051)

### Prerequisites: ECLAD102WBT

- E-Learning: OB000 Overview of Hyperspace in a Labor and Delivery Setting
- E-Learning: INP061 Documenting in Flowsheets
- E-Learning: OB001 Overview of the L&D Grease Board
- E-Learning: ROV150 Overview of Inpatient Care with Rover

Course Description:
In this course, you will learn to start your shift, perform a chart review on mom and baby, identify patients who need a lactation consult, document lactation information, document in the lactation navigator, update care plans and patient education, and write a lactation note.
Sonographer

| Pre-Requisite E-Learning Courses | Sonographer: Recorded Lessons | Training Track Complete |

**Course ID:** ECLAD103RL  
**Prerequisites:** ECLAD103WBT

- Recorded Lessons Length: 1 hour  
- E-Learning Length: 10 minutes

**Course Description:**  
In this course, you will learn to identify patients who need an ultrasound performed, check in an ultrasound appointment, and begin and end the exam. You will learn how to review patient information, verify orders, and document staff info and study notes. The course also includes exercises to practice their own workflows from end to end.

- E-Learning RAD054: Overview of the Technologist Work List  
- E-Learning RAD051: Introduction to Ancillary Orders
# Ophthalmology

## Ophthalmic Tech/Nurse

<table>

</table>

**Course Description:**

- In the Financial Clearance Center 100 course, you will learn key functions on how to navigate the Pre-admission/Surgery workflow to validate the patient’s pre-admission, update demographics, insurance, and billing information prior to a patient's admission/surgery. You will also learn how to Verify patient level information (Real Time Eligibility, RTE), and validate the Medical Necessity for Medicare Patients.

**Scope:**

- Pre-Registration Validation
- Medical Necessity for Medicare Patients
- Eligibility and Benefits Verification
- Pre-Certifications/Authorizations
- Financial Class Selection

- Course: Financial Clearance Center
- E-Learning: ADT051: Overview of Patient Station for Access Users
- E-Learning: PRE050: Overview of Workqueues for Access
- E-Learning: ADT055: Overview of Event Management
### Financial Counselor

**Audience:** Staff dealing with self-pay/ PRENATAL CARE ASSISTANCE PROGRAM (PCAP) population

<table>

</tr>
</tbody>
</table>

**Course Description:**
In this course, you learn the basics of navigating and using account maintenance and registration to update data related to a patient's account. You will also learn how to add Federal Poverty Level information and work with Pending Medicaid coverages.

- E-Learning: ADT051: Overview of Patient Station for Access Users
- E-Learning: ADT054: Overview of the Interactive Face Sheet
- E-Learning: ADT003: Collecting Authorization and Certification Information
- E-Learning: GEN006: Overview of Hyperspace for Revenue and Access Products
- E-Learning: PRE050: Overview of Workqueues for Access
- E-Learning: PRE051: Overview of Registration in a Hospital Setting
Patient Access

**Course ID:** ECREG101ILT  
**Prerequisites:** ECREG101WBT

**Instructor-Led Course Length:** 4 hours  
**E-Learning Length:** 107 minutes

**Course Description:**
In this course you learn how to:
- Admit Pre-admitted Patients
- Admit a Direct Admit Patient
- Manage Events
- Work with Denials
- Correct Coverage Effective for Stay DNB Check
- Follow up on Registration Related Claim Edits
- Work with Registration Related Denials
- Work with Stop Bills, Claim Edits, and Discharge Not Billed edits.

**Prerequisites:**
- **E-Learning:** Overview of Patient Station for Access Users (ADT051)
- **E-Learning:** Overview of Workqueues for Access (PRE050)
- **E-Learning:** Overview of Event Management (ADT055)
- **E-Learning:** Overview of Hyperspace for Revenue and Access Products (GEN006)
- **E-Learning:** Overview of the Interactive Facesheet (PRE054)
- **E-Learning:** Overview of Registration in a Hospital Setting (PRE051)
- **E-Learning:** Overview of Registration in an Outpatient setting (PRE052)
- **E-Learning:** Overview of Hyperspace for ASAP Users (ED001)
- **E-Learning:** Overview of Arrival and Patient Search
- **E-Learning:** Overview of the Appointment Desk (CAD050)
# Birth Registry

### Inpatient Pharmacist

**Course ID:** ECRXC100ILT

<table>
<thead>
<tr>
<th>Instructor-Led Course Length: 14 hours</th>
<th>E-Learning Length: 2 hours</th>
</tr>
</thead>
</table>

**Prerequisites:** ECRXC100WBT

**Course Description:**
In this course you will learn the basic tasks of verifying orders including finding and verifying new orders, adjusting orders in verification, and intervening on inappropriate therapy. You will then learn about dispensing and preparing medications in a number of contexts. This includes verifying non-formulary medications and processing therapeutic interchanges. You will also learn how to monitor patients using Epic tools and functionality. Additionally, you will learn to support medication reconciliation at admission/discharge, advanced prep meds for surgery, ordering and verifying TPN, performing patient education, performing antimicrobial stewardship.

- E-Learning: CLINP001 Overview of Hyperspace in an Inpatient Setting
- E-Learning: RX000 Introduction to Willow Inpatient
- E-Learning: MDINP107B EpicCare Inpatient Medication Reconciliation
- E-Learning: MDINP107A EpicCare Inpatient Modifying Orders
- E-Learning: RX001 Verify Orders
- E-Learning: RX003 Intermurrences
- E-Learning: INP062 Administering Medications on the MAR
- E-Learning: INP162 Documenting Scheduled, Overdue, Missed, and Held Medications and Override Pulls (Barcoding)
Inpatient Pharmacy Technician

**Audience:** Inpatient Pharmacy Technicians and Pharmacy Technician Managers

1. Pre-Requisite E-Learning Courses
2. Inpatient Pharmacy Technician: Live Virtual Training

Training Track Complete

---

**Inpatient Pharmacist Technician**

**Course ID:** ECRXC101ILT

**Prerequisites:** ECRXC101WBT

- Instructor-Led Course Length: 6 hours
- E-Learning Length: 1 hours

**Course Description:**
- In this course you learn how to read labels and dispense meds, as well as how to return orders, charge in bulk, and compound and repackage medications.
  You'll also learn how to assist with admission med rec and inventory management.

- E-Learning: CLNINP001 Overview of Hyperspace for Inpatient Clinicians
- E-Learning: RX003 Interruptions
- E-Learning: INP062 Administering Medications on the MAR
  E-Learning: INP162 Documenting Scheduled, Overdue, Missed, and Held Medications and Override Pulls (Barcoding)
Epic Training Course Catalog for End Users, 2020

Population Health

Care Manager

Audience: Care Managers working in the Ambulatory Setting

| ① Pre-Requisite E-Learning Courses | ② Care Manager: Recorded Lessons | ✔ Training Track Complete |

Course Description:
In this course, you learn the major workflows and tools used for following up with insurance companies on unpaid and denied claims. This includes working in follow-up workqueues and Inquiry to resolve denied claims and claims with no response from the payor. You will also learn to review visit filing order changes and use retro review workqueues.

You will also practice workflows independently with proctored exercises to enforce skills learned during the course.

- E-Learning: GEN006 Overview of Hyperspace for Revenue and Access Products
- E-Learning: RPB002 Introduction to Account Maintenance
- E-Learning: RPB051 Overview of the Professional Billing Revenue Cycle
- E-Learning: PRE052 Overview of Registration in an Outpatient Clinic Setting
- E-Learning: REV150 SmartTools for the Business Office
- E-Learning RPB077: Overview of Follow-Up Workqueues
PB Insurance Follow-Up Supervisor

**Audience:** Manager’s overseeing insurance follow-up staff.

**Course ID:** ECRSH103ILT  
**Prerequisites:** ECRSH103WBT

**Instructor-Led Course Length:** 6 hours  
**E-Learning Length:** 40 minutes

**Course Description:**
In this course, you will learn how to:

- Use the schedule activity to view and access different department and provider schedules.
- Review the Chart. Review visit documentation, various types of test results, and medications.
- Pend Orders.
- Write a research note.
- Document telephone encounters.
- Associate patients to research studies.
- Associate orders to research studies.
- Associate encounters to research studies.
- Releasing information to study monitors.
- Performing coordinator review of research-related charges.
- Use and create reports to find patients associated to your research studies and patients associated to your research studies with upcoming appointments.

- E-Learning: CLNAM001 Overview of Hyperspace in an Outpatient Setting
- E-Learning: MD108 Overview of In Basket
- E-Learning: RSCH001 Overview of Research Studies in Epic
- E-Learning Overview of Media Manager (CLN060)
- E-Learning Ordering in an Outpatient Context (MDAMB107)
- E-Learning: RSCH080 Overview of the Research Billing Review Activity
### Credentialed Study Team Member

**Audience:** Providers and research study members who are licensed. Pharmacists, Social workers, Nurses, PIs

</tr>
</tbody>
</table>

### Course Description:

In this course, the user will learn the basics of pre-procedure, phase II, and PACU documentation, including assessments, orders, lines, medication administration, and blood administration. Users will also practice workflows.

Prerequisites:
- CLNINP001 Overview of Hyperspace in an Inpatient Setting
- CLN058 Overview of a Navigator
- OR110 Finding Patients and Beginning Charting
- OR126 Documenting Vitals and Patient Assessments in a Navigator
- INP061 Documenting in Flowsheets
- INP062 Administering Medications on the MAR
- INP065 Nurse Managing Orders
- INP074 Document Patient Education
- INP085 Manage LDAs Using the LDA Avatar
- INP160 Documenting IV Fluids and Medications Drips
- INP162 Advanced Medication on the MAR
- INP163 Validating Monitor Data
- OR127 Pre-Procedure Phone Call
- OR155 Postprocedure Phone Call
- ED200 Document in the Code Narrator

### Course Information

**Course ID:** ECSUR110RL  
**Prerequisites:** ECSUR110WBT

- **Recorded Lesson Length:** 2 hours  
- **E-Learning Length:** 1 hour

**Course Description:**

In this course, you will learn documentation tasks relevant to surgery schedulers, including case request creation, scheduling and schedule management.

- E-Learning: CLNINP001 Overview of Hyperspace in an Inpatient Setting
- E-Learning: OR053 Overview of the Schedule
- E-Learning: OR102 Office Staff Case Requests
- E-Learning: OR103 Case Creation and Scheduling
OR Manager

Epic: View-Only for Access and Revenue Cycle Users

Course ID: EVO100WBT

Prerequisites:

- Recorded Lesson Length: 80.5 minutes
- E-Learning Length: n/a

Course Description:
In this course you will learn how to login and navigate through Hyperspace, search for patients, view patient accounts and charts, as well as understand the two main types of reports and related reporting tools. Revenue Cycle view only users will also learn how to review the different types of charges and how they post to patient accounts.

Revenue:
- Overview of Hyperspace for Revenue and Access Products (GEN006)
- Resolute Hospital Billing Revenue Cycle Overview (RHB003)
- Overview of Account Errors and Flags (RHB007)
- Overview of the Professional Billing Revenue Cycle (RPB051)
- Introduction to Account Maintenance (RPB002)
- Account Maintenance for Customer Service and Self-Pay Follow-Up (RHB072)

Access:
- Overview of the Department Appointments Report (CAD051)
- Overview of Making an Appointment (CAD052)
- Overview of the Snapboard (CAD053)
- Overview of Patient Station for Access Users (ADT051)
- Overview of Unit Manager (ADT061)
- Overview of Registration in a Hospital Setting (PRE051)
Epic: View-Only for Clinical Users

**Audience:** All Clinical End-users needing access to view Epic. No-Documentation

1. **Pre-Requisite E-Learning Courses**
   - Training Track Complete

---

**Course ID:** EVO102WBT

**Prerequisites:**
- Overview of Hyperspace (MD100)
- Overview of Hyperspace in an Outpatient Setting (CLNAMBA001)
- Overview of Hyperspace in an Inpatient Setting (CLNINP001)
- Overview of Hyperspace for ASAP users (ED001)
- Overview of the ED Map (ED002)
- Clinical Information Review (ED013)
- Overview of the L&D Grease Board (OB001)
- Overview of the L&D Manager (OB002)
- Overview of Finding Patients on the Status Board (OR050)

**Course Description:**
In this course you will learn how to login and navigate through Hyperspace, review information on past visits and labs, and search for patients. Clinical view only users will also learn how to view patient results and reports in addition to using In Basket.
