Welcome to Training

Colleagues,

With Epic, each patient’s story will reside in a single electronic record. Having ambulatory, inpatient, and perioperative information all in one place will dramatically enhance the way we practice medicine at Columbia University Irving Medical Center. Columbia, Weill-Cornell, and NewYork-Presbyterian are working together to better track our patients from visit to visit for a more holistic view of their health. This change will have a profound impact on how our clinicians collaborate, improve communication between providers and patients, and enhance access to health information.

Implementing Epic is a massive undertaking, which requires not only a financial investment, but a substantial commitment of time and focus from each organization. The depth of knowledge and commitment of our colleagues is invaluable in this effort. We want to express our sincere appreciation to you as we implement new processes through this system. Through this challenging and transformative process, we are improving the patient experience, advancing the quality of patient care, and increasing our efficiency.

As we move into this important phase of the Epic project, we are reminded of our Guiding Principles. Revamping workflows and learning new technology will bring about significant change for our enterprise. This transition will not be an easy one, but we have committed to change for the long-term benefits we anticipate for all.

Education is a fundamental pillar of our mission, and to support the needs of our users, robust readiness and training programs will educate our clinicians and staff on the new work processes and technology, to ensure that everyone is ready to make the leap to the new system on Day 1.

Our training curriculum blends e-learning and traditional classroom instruction. Training is role-based, with specific courses for clinicians, nurses, rehab therapists, case managers, pharmacists, registrars, schedulers, and charge entry/billing personnel, to name a few. Assignments and class attendance will be tracked using the Saba learning management system to ensure that everyone is ready to use Epic.

If you have any questions about the pages that follow, we’re here to help. Key contacts are listed in the introduction section of this catalog. These knowledgeable team members can guide you to the correct training programs and assist with the Saba learning management system.

For now, we want to personally acknowledge our enthusiasm for this transformation as well as our gratitude for the important role that each of you plays in taking care of our patients. We look forward to continuing to work with you as we transform the way we deliver care at Columbia, NewYork-Presbyterian, and Weill Cornell Medicine.

Respectfully,

Timothy J. Crimmins, MD, RPVI
Chief Medical Information Officer, ColumbiaDoctors
Columbia Co-Lead, EpicTogether

Irene Louh, MD, PhD.
Assistant Chief Medical Officer, NewYork-Presbyterian
Assistant Professor of Medicine at CUIMC
Overview
The EpicTogether team, in conjunction with Epic and SMEs from each institution, designed over two-hundred and forty role-based training programs on the electronic health record (EHR) system to prepare staff for go-live. The training programs, called training tracks, take a blended approach to learning, consisting of e-learning, classroom instruction, and self-paced practice prior to go-live.

Our Commitment
In designing and delivering training programs to prepare staff from Columbia University, NewYork-Presbyterian, and Weill-Cornell Medicine for the Epic go-live, we commit to:

1. Provide world class training to every staff member.
2. Celebrate diversity and inclusion in our classrooms and demonstrate cultural competence in our work.
3. Encourage open dialogue and take ownership of concerns, reporting back on discoveries made and outcomes achieved.
4. Evaluate our progress and that of our learners and adapt to changing needs for the improvement of the programs we deliver.

Essentials for Access
All staff who require access to the electronic health record must complete the following activities in order to receive system access:

1. Complete all e-learning courses ahead of instructor-led (classroom) training within his or her assigned training track.
2. Complete all instructor-led (classroom) training, including personalization labs (if applicable) within the assigned training track.
3. Complete a proficiency assessment for the assigned training track at the completion of classroom training, a score of 80% or higher is required to pass.
Overview

The Epic Course Catalog is designed to assist managers and staff in identifying the appropriate training track(s) to attend. A **training track** is the complete series of educational activities required for a given role to prepare them to use Epic. Every member of our institutions who will use Epic for their daily work must complete a corresponding training track. There are two main components in this catalog to pay close attention to: Training Track Diagrams and Course Information Boxes, both are explained below.

Training Track Diagrams

A **training track diagram** is a visual representation of the sequence of courses for a staff member to complete their training track. In the following example, the Anesthesia Provider has several educational activities required to complete the training track. First, pre-requisite e-learning courses must be completed ahead of attending the **STS135: Anesthesia Provider** instructor-led (classroom) course. The **STS135LAB: Anesthesia Provider Personalization Lab** can only be completed after the **STS135: Anesthesia Provider course**. After the completion of the Personalization Lab the training track is completed.

The **Audience** listed below the training track name indicates what roles the training is designed for.

**Anesthesia Provider Training Track Diagram**
Course Information Boxes

You learned that training track diagrams outline all of the steps students must complete in order to be fully trained on Epic for their role, and to receive access to the system. The Course Catalog also includes Course Information Boxes which provide additional detail on each course offered, including a description, course length, and course pre-requisites. In the following example, the Anesthesia Provider Course Information Box specifies the following key details:

- **Course ID**: This ID corresponds to the course in the Saba Learning Management System; it assists you in finding the course when using the search or filters available in Saba.
- **Course Length**: The course length specifies the length of the instructor-led (classroom) course.
  - Note: This does not account for the length of pre-requisite e-learning courses (see E-Learning Course Length below).
- **E-Learning Course Length**: The E-Learning course length specifies the length of all pre-requisite e-learning courses that must be completed before attending the instructor-led (classroom) course.
- **Course Description**: The description below Course Length provides key topics taught during the instructor-led (classroom) course.
Frequently Asked Questions

Q: Is training required?
A: Yes. All users of the Epic system, more than 20,000 in all for the first go-live, will require formal Epic training in order to receive access to the Epic electronic health system. Most members of our organization, and the vendors we work with, will have formal classroom training with online learning components. All items listed in a training track diagram are required to be completed in the order they appear.

Q: When does registration begin?
A: Training registration for providers begins on April 29th, 2019. For all other clinical and administrative areas, registration begins on June 3rd, 2019. The Saba Learning Management System is used for training registration, online learning, assessments and training evaluations.

Q: What are the classroom training dates?
A: Classes kick-off on November 4th, 2019, for the West Campus go-live. Classes will conclude by January 30th, 2020, ahead of the January 31st go-live date.

Q: Where is classroom training held?
A: Classroom training takes place across several facilities in midtown Manhattan, Washington Heights, and New Jersey. Please consult the Training Locations section of this catalog for specific details about the 50+ training rooms we'll use.

Q: Who will train my class?
A: Classroom training and provider personalization labs are trained by Specialists from the departments who have been taught Epic and the specialty’s workflows early. In addition to the Specialist Trainer, a Credentialed Trainer may be present in your class to assist with administrative aspects of the course and provide at-the-elbow support to learners.
Q: Do I need to attend all scheduled classes and labs?
A: Yes, all classes and labs for your role, as depicted in the training track diagrams in this catalog, are mandatory, as well as the assigned e-learning lessons.

Q: When will I take my prerequisite e-learning lessons?
A: E-Learning lessons are assigned to you in the Saba Learning Management System ahead of attending your instructor-led classes (when applicable). The e-learning lessons will be available by October 1st, 2019 in Saba. You will log in to Saba with your CWID and associated password.

Q: What will I need to watch the e-learning lessons?
A: E-Learning lessons are interactive online learning modules that contain some level of interactivity, audio, and quizzing elements. As such, you will need a computing device with a mouse or touch area, a keyboard, and the ability to wear headphones for audio narration or turn on closed captioning. Microsoft Edge, Google Chrome, and Mozilla FireFox are supported web browsers. You may need to enroll in Duo two-factor authentication for the CWID assigned to you. Information on Duo for CWIDs can be found here.

Q: What do I do if I have difficulty playing the e-learning courses assigned to me?
A: If you experience issues with e-learning lessons not playing, freezing, or not completing in Saba, please open a ticket with the Service Desk at 212-746-4357.

Q: What do I do if I need to change my classes?
A: As an attending, you will be able to change the session you are enrolled in within the Saba Learning Management System. Residents, Fellows, Physician Assistants, and Nurse Practitioners may need to work with their program director or manager to have them reschedule your training session.

Q: What do I need to bring to class?
A: Aside from curiosity and enthusiasm, you should plan to bring a writing instrument and paper to take notes, and a sweater or jacket in case the room is cool.
Q: What happens if I don’t pass my proficiency assessment?
A: You will complete the assessment a second time after you have spent time practicing exercises from booklets provided during classroom training. For learners who do not pass the assessment on the second attempt, they will complete their full training program once again. Access to the Epic system will not be provided until a passing score of 80% or higher is achieved by the learner.

Q: What are Super Users?
A: A Super User provides operational support for the Epic go-live. Super User will answer end-user questions, assist the EpicTogether Training Team by helping at-the-elbow during end-user training classes, and serve as a liaison between end-users, and leaders from his or her department and the EpicTogether project. The Super User’s support assignment will take place during and immediately following go-live. Please consult the Epic Super User Assignment Description available on www.epictogetherny.org.

Q: Am I able to practice what I have learned after class?
A: Yes! A special Epic environment is created for you to use for practicing workflows and reviewing concepts outside of the classroom, we call it Playground. The Playground environment is available on clinical and administrative workstations through Citrix. Information about the Playground environment will be provided on www.epictogetherny.org in November, 2019. After attending instructor-led training, you will have access to an Exercise Booklet and Quick Start Guides that you can use with the Playground environment.

Q: Will I receive access to Epic once I complete my classes?
A: During classroom training, you will use a training username and password to access the training environment. At the end of your last class, and following the successful completion of the proficiency assessment, you will have an opportunity to validate your login credentials in the production environment. Your login credentials for Epic will be your CWID and associated password.

Q: Who should I contact if I have questions?
A: Please e-mail us at epictogethernytraining@nyp.org.
## Allergy & Immunology

### Allergist-Immunologist

#### Audience: Allergist-Immunologist (MD, Fellow, Resident, PA, NP) in the Inpatient and Outpatient Setting

1. Pre-Requisite E-Learning Courses
2. STS115: Allergist-Immunologist
3. STS115LAB: Allergist-Immunologist Personalization Lab

Training Track Complete

### Allergist-Immunologist

<table>
<thead>

<th>Prerequisites</th>
</tr>
</thead>
<tbody>
<tr>
<td>Instructor-Led Course Length: 2.5 hours</td>
<td>E-Learning Length: 1.75 hours</td>
</tr>
</tbody>
</table>

**Course Description:**

In this course, you will learn how to get through the essentials of an office visit, including reviewing the chart, documenting problems and diagnoses, writing notes, and placing orders. During these office visits, you will learn how to document and review patient data for allergy testing and immunotherapy visits. You'll also review In Basket and see how to follow up on common messages.

Thereafter, providers will attend a 2-hour personalization lab to customize the Epic experience specific to the particular needs of each provider. In addition, Haiku, Epic’s mobile application will be also be covered during personalization lab.

Anesthesia Provider

Course ID: STS135
Instructor-Led Course Length: 5 hours

Prerequisites
E-Learning Length: 2 hours

Course Description:
In this course, you will learn how to get through the essentials of anesthesia workflow, including preprocedure, intraprocedure, and postprocedure. You'll also learn how to document floor procedures, labor consults and epidurals, presurgical blocks, monitor concurrent cases, and order blood.

Thereafter, providers will attend a 2-hour personalization lab to customize the Epic experience specific to the particular needs of each provider. In addition, Haiku, Epic’s mobile application will be also be covered during personalization lab.

Training Track Complete

Bariatric Surgeon

Course ID: STS141

Instructor-Led Course Length: 4.0 hours
E-Learning Length: 2.75 hours

Course Description:
In this course, you will learn how to get through the essentials of basic office visits, initial consult visits, and pre-transplant visits, including reviewing the chart, documenting problems and diagnoses, writing notes, and placing orders. You will also learn how to modify the treatment plan, as well as how to review In Basket and follow up on common messages.

During the inpatient portion of class, you will learn how to write orders and notes while consulting on, rounding, transferring, and discharging patients.

Thereafter, providers will attend a 2-hour personalization lab to customize the Epic experience specific to the particular needs of each Bariatric Specialist. In addition, Haiku, Epic’s mobile application will be also be covered during personalization lab.

**Course ID:** STS146

**Instructor-Led Course Length:** 3.5 hours  
**E-Learning Length:** 2.0 hours

**Course Description:**
During the outpatient Psychiatry class, the Psychiatrist will see the differences between a quick office visit and full standard office visit. This includes how to find and review patient data, manage orders, write notes, and select charges. Psychiatrist will learn how to admit a patient from the clinic and will review use of the In Basket as an Epic communication tool. Care Everywhere to access patient information from outside organizations is also covered.

After completion of the class, Psychiatrist will take an assessment.

Thereafter, providers will attend a 2 hour personalization lab to customize the Epic experience specific to the particular needs of each Psychiatrist. In addition, Haiku, Epic’s mobile application will be also be covered during personalization lab.

**Course Description:**
During the Inpatient Psychiatry class, the Psychiatrist will learn how to document a consult, admit a patient, and discharge workflows. This includes how to find and review patient data, manage orders, write notes, and select charges. This includes how to find and review patient data, manage orders, write notes, and select charges. Psychiatrist will review use of the In Basket as an Epic communication tool. Care Everywhere to access patient information from outside organizations is also covered.

After completion of the class, Psychiatrist will take an assessment.

Thereafter, providers will attend a 2 hour personalization lab to customize the Epic experience specific to the particular needs of each Psychiatrist. In addition, Haiku, Epic’s mobile application will be also be covered during personalization lab.

- E-Learning Lesson: MD100 - Overview of Hyperspace
- E-Learning Lesson: MD108 - Overview of In Basket
- E-Learning Lesson: MDINP103 - EpicCare Inpatient: Finding Patient Information
- E-Learning Lesson: MD105B - Introduction to Patient History
- E-Learning Lesson: MDINP105 - EpicCare Inpatient: Problem List
- E-Learning Lesson: MDINP106 - EpicCare Inpatient: Writing Notes
- E-Learning Lesson: MDINP107A - EpicCare Inpatient: Managing Orders
- E-Learning Lesson: MDINP107B - EpicCare Inpatient: Medication Reconciliation
- E-Learning Lesson: MDINP107C - EpicCare Inpatient: Phases of Care
- E-Learning Lesson: MDINP104 - Overview of Transfer Center for Physicians
- E-Learning Lesson: MDINP108 - EpicCare Inpatient: Using In Basket
- E-Learning Lesson: ONC070 - Overview of Therapy Plans - Physicians

CPEP Provider
## Audience: CPEP Providers (MD, Fellow, Resident, PA, NP).

1. Pre-Requisite E-Learning Courses
2. STS148: CPEP Provider
3. STS148LAB: CPEP Provider Personalization Lab

### CPEP Provider

**Course ID:** STS104

**Instructor-Led Course Length:** 6.0 hours  
**E-Learning Length:** 2.75 hours

**Course Description:**
In this course you will learn how to get through the essentials of office visits and surgical consults, including reviewing the chart, documenting problems and diagnoses, writing notes, prepping for a procedure, and placing orders. You’ll also review In Basket and see how to follow up on common messages as well as running Care Everywhere queries for patient information from outside institutions.

During the inpatient portion of class, you will learn how to do these tasks while completing an inpatient consult, prepping for a procedure, transferring a postprocedure patient to the floor and discharging a postprocedure patient.

You’ll also review how to use structured reporting tools for studies resulted in Epic, as well as where to locate studies that were resulted outside of Epic.

- **Prerequisites**
  - E-Learning Lesson: MD100 - Overview of Hyperspace
  - E-Learning Lesson: MD103 - Finding Patient Information
  - E-Learning Lesson: CLN055 - Overview of Writing Notes
  - E-Learning Lesson: MD105A - Introduction to the Problem List
  - E-Learning Lesson: MD110 - Introduction to Surgical Specialties
  - E-Learning Lesson: MD108 - Overview of In Basket
  - E-Learning Lesson: AMB001 - Physician-Nurse Office Visit Demonstration
  - E-Learning Lesson: MD105B - Introduction to Patient History
  - E-Learning Lesson: MDAMB104 - EpicCare Ambulatory: Wrapping Up a Visit
  - E-Learning Lesson: MDAMB106 - EpicCare Ambulatory: Writing Notes for Office Visits
  - E-Learning Lesson: MDAMB107 - EpicCare Ambulatory: Ordering in an Outpatient Context
  - E-Learning Lesson: MDAMB112 - EpicCare Ambulatory: Documenting a Straightforward Visit with Express Lane
Thereafter, providers will attend a 2 hour personalization lab to customize the Epic experience specific to the particular needs of each Invasive Cardiologist. In addition, Haiku, Epic’s mobile application will be also be covered during personalization lab.

- E-Learning Lesson: MDAMB109 - Introduction to Communication Workflows
- E-Learning Lesson: MDINP103 - EpicCare Inpatient: Finding Patient Information
- E-Learning Lesson: MDINP104 - Overview of Transfer Center for Physicians
- E-Learning Lesson: MDINP105 - EpicCare Inpatient: Problem List

Geneticist (Genetic Counselor)

**Audience: Geneticists and Genetic Counselors in the Inpatient and Outpatient Setting**

1. Pre-Requisite E-Learning Courses
2. STS149: Geneticist (Genetic Counselor)
3. STS149LAB: Geneticist (Genetic Counselor) Personalization Lab

### Course ID: STS149

**Instructor-Led Course Length:** 2.5 hours

**E-Learning Length:** 1.75 hours

**Course Description:**
In this course you will learn how to get through the essentials of an office visit, including reviewing the chart, documenting problems and diagnoses, and placing orders. You'll learn how to document genetic counseling and review and add genomic indicators to a patient's chart. You'll also review In Basket and see how to follow up on common messages.

Thereafter, providers will attend a 2-hour personalization lab to customize the Epic experience specific to the particular needs of each Geneticist or Genetic Counselor. In addition, Haiku, Epic's mobile application will be also be covered during personalization lab.

- E-Learning Lesson: MD100 - Overview of Hyperspace
- E-Learning Lesson: MD103 - Finding Patient Information
- E-Learning Lesson: CLN055 - Overview of Writing Notes
- E-Learning Lesson: MD105A - Introduction to the Problem List

Hospitalist

Audience: Hospitalist Providers (MD, Fellow, Resident, PA, NP).

1.
Pre-Requisite E-Learning Courses

2.
STS110: Hospitalist

3.
STS110LAB: Hospitalist Personalization Lab

Training Track Complete

Course ID: STS110

Instructor-Led Course Length: 2.5 hours

Course Description:
Hospitalists training does not cover Epic documentation in the outpatient setting. Refer to the Family Medicine-Internist training for the dual Outpatient/Inpatient provider.

This class introduces the Epic workflow navigators, to the Hospitalist. Structured as a “day in the life”, the Hospitalist will learn how to find and review patient data, manage orders, write a full variety of notes, during rounding, admission, transfer, consults and discharge workflows.

Thereafter, providers will attend a 2 hour personalization lab to customize the Epic experience specific to the particular needs of each Provider. In addition, Haiku, Epic’s mobile application will be also be covered during personalization lab.

Prerequisites

- E-Learning Lesson: MD100 - Overview of Hyperspace
- E-Learning Lesson: MD103 - Finding Patient Information

**Course Description:**

This course reviews Inpatient Epic documentation for the Critical Care Provider. **Pediatric Intensivists should attend the Pediatric Intensivist training.** Attend training for your Specialty, if you care for patients in Outpatient setting. **Neurointensivists should attend the Neurointensivist training.**

This class will introduce the Epic workflow navigators, to the spectrum of Intensive Care providers. Structured as a “day in the life”, the Intensivist will learn how to find and review patient data, manage orders, write a full variety of notes, during the rounding, admission, transfer, consults and discharge workflows.

Thereafter, providers will attend a 2 hour personalization lab to customize the Epic experience specific to the particular needs of each Intensivist. In addition, Haiku, Epic’s mobile application will be also be covered during personalization lab.

</table>

**Course Description:**

This course reviews Epic documentation for the Transfusion Medicine Pathologist. Pathologists who require “view-access” only, should not attend this class. For “view-only access”, take the VIEW ONLY class.

In this class, Providers will learn how to use Epic to find and review patient data, manage orders, and write notes. The Provider will also review, In Basket, an Epic communication tool. Care Everywhere to access patient information from outside organizations is also covered.

Thereafter, Providers will attend a 2 hour personalization lab to customize the Epic experience specific to the particular needs of each Pathologist. In addition, Haiku, Epic’s mobile application will be also be covered during personalization lab.

- E-Learning Lesson: MD001 - Introduction to Epic Training
- E-Learning Lesson: MD100 - Overview of Hyperspace
- E-Learning Lesson: MDINP103 - EpicCare Inpatient: Finding Patient Information
- E-Learning Lesson: MD105A - Introduction to the Problem List
- E-Learning Lesson: MDINP107A - EpicCare Inpatient: Managing Orders
- E-Learning Lesson: MD111 - Introduction to Decision Support
- E-Learning Lesson: MDINP106 - EpicCare Inpatient: Writing Notes
- E-Learning Lesson: AMB525 - In Basket: Following up on Results Messages
- E-Learning Lesson: RDR101 - Introduction to Radar
- E-Learning Lesson: RPT005 - Run and Manage Reports
Pediatric Medicine

Pediatrician

Audience: Pediatrician (MD, Fellow, Resident, PA, NP) in the Inpatient and Outpatient Setting

1. Pre-Requisite E-Learning Courses
2. STS101: Pediatrician
3. STS101LAB: Pediatrician Personalization Lab
Training Track Complete

Course ID: STS101
Instructor-Led Course Length: 4.5 hours

Course Description:
In this course, you will learn how to get through the essentials of an office visit, including reviewing the chart, documenting problems and diagnoses, writing notes, and placing orders. You will specifically learn how to document and review patient data in regards to socialization history, developmental history, patient growth, health maintenance. You will learn how to document common procedures in an outpatient setting. You'll also review In Basket and see how to follow up on common messages. You will learn the basics to CareEverywhere and reconciling information from outside of the patient’s chart.

During the inpatient portion of this class, you will learn how to review the chart and write orders and notes while rounding, admitting, transferring, discharging, and consulting on patients.

Prerequisites
E-Learning Length: 2.75 hours
• E-Learning Lesson: MD100 - Overview of Hyperspace
• E-Learning Lesson: MD103 - Finding Patient Information
• E-Learning Lesson: CLN055 - Overview of Writing Notes
• E-Learning Lesson: MD105A - Introduction to the Problem List
• E-Learning Lesson: MD108 - Overview of In Basket

| Cardiothoracic Transplant Provider |
| Course ID: STS140 | Prerequisites |
| Instructor-Led Course Length: 4.0 hours | E-Learning Length: 3.0 hours |
Course Description:
In this course you will learn how to get through your inpatient and outpatient workflows. For outpatient, we will cover the essentials of office visits and surgical consults, including reviewing the chart, documenting problems and diagnoses, writing notes, prepping for surgery, and placing orders.

You'll also review In Basket and see how to follow up on common messages as well as running Care Everywhere queries for patient information from outside institutions.

During the inpatient portion of this class, you will learn how to review the chart and write orders and notes while completing an inpatient surgical consult, transferring a post-op patient to the floor, rounding, and discharging a post-op patient.

Thereafter, providers will attend a 2 hour personalization lab to customize the Epic experience specific to the particular needs of each Cardiothoracic Transplant Provider. In addition, Haiku, Epic's mobile application will be also be covered during personalization lab. In addition, Haiku, Epic's mobile application will be also be covered during personalization lab.

- E-Learning Lesson: MD100 - Overview of Hyperspace
- E-Learning Lesson: MD103 - Finding Patient Information
- E-Learning Lesson: CLN055 - Overview of Writing Notes
- E-Learning Lesson: MD105A - Introduction to the Problem List
- E-Learning Lesson: MD110 - Introduction to Surgical Specialties
- E-Learning Lesson: MD108 - Overview of In Basket
- E-Learning Lesson: AMB001 - Physician-Nurse Office Visit Demonstration
- E-Learning Lesson: MD105B - Introduction to Patient History
- E-Learning Lesson: MDAMB104 - EpicCare Ambulatory: Wrapping Up a Visit
- E-Learning Lesson: MDAMB106 - EpicCare Ambulatory: Writing Notes for Office Visits
- E-Learning Lesson: MDAMB107 - EpicCare Ambulatory: Ordering in an Outpatient Context
- E-Learning Lesson: MDAMB109 - Introduction to Communication Workflows
- E-Learning Lesson: MDINP103 - EpicCare Inpatient: Finding Patient Information
- E-Learning Lesson: MDINP104 - Overview of Transfer Center for Physicians
- E-Learning Lesson: MDINP105 - EpicCare Inpatient: Problem List
- E-Learning Lesson: MDINP106 - EpicCare Inpatient: Writing Notes
- E-Learning Lesson: MDINP107A - EpicCare Inpatient: Managing Orders
- E-Learning Lesson: MDINP107B - EpicCare Inpatient: Medication Reconciliation
- E-Learning Lesson: MDINP107C - EpicCare Inpatient: Phases of Care
- E-Learning Lesson: MDINP108 - EpicCare Inpatient: Using In Basket
- E-Learning Lesson: ONC070 - Overview of Therapy Plans - Physicians
- E-Learning Lesson: TXP050 - Reviewing Transplant Information in the Patient’s Chart
- E-Learning Lesson: TXP051 - Exploring the Transplant Information Activity

**Course ID:** STS117

**Instructor-Led Course Length:** 4.5 hours

**E-Learning Length:** 2.75 hours

**Course Description:**

During the outpatient portion, you will learn how to get through the essentials of office visits and surgical consults, including reviewing the chart, documenting problems and diagnoses, writing notes, prepping for surgery, and placing orders. You will learn how to document common procedures in an outpatient setting. You will also review In Basket and see how to follow up on common messages.

The Inpatient portion will cover the Epic workflow navigators. Structured as a “day in the life”, the Provider will learn how to find and review patient data, manage orders, write a full variety of notes, during the rounding, admission, transfer, consults and discharge workflows.

Thereafter, providers will attend a 2 hour personalization lab to customize the Epic experience specific to the particular needs of each.

Reporting & Analytics

High Needs Reporting Users – Clinical

### Pre-Requisite E-Learning Courses

1. REP100: Reporting in Epic for Clinicians
2. REP103: Reporting Content Lab

### Training Track Complete

#### Reporting in Epic for Clinicians

**Course ID:** REP100

<table>
<thead>
<tr>
<th>Instructor-Led Course Length: 5.0 hours</th>
<th>E-Learning Length: 45 minutes</th>
</tr>
</thead>
</table>

**Course Description:**

Clinical Power Users will learn the difference between operational and analytical reporting tools, how to access and navigate Radar dashboards, and how to edit and create Reporting Workbench reports. Power Users will also learn how to choose the right reporting tool and view Epic-Crystal reports.

- E-Learning Lesson: RPT001 - Overview of Reporting and Reporting Tools
- E-Learning Lesson: RPT005 - Run and Manage Reports
- E-Learning Lesson: RPT010 - Modifying the Search Criteria of a Report
- E-Learning Lesson: RDR101 - Introduction to Radar
- E-Learning Lesson: RDR102 - Personalize a Radar Dashboard

#### Reporting Content Lab

**Course ID:** REP103

<table>
<thead>
<tr>
<th>Instructor-Led Course Length: 3.0 hours</th>
<th>E-Learning Length: N/A</th>
</tr>
</thead>
</table>

**Course Description:**

Content labs are education sessions to prepare the Power Users for go-live by showing them the reports that will be available, educating them about how the data is generated, and sharing tips/tricks.

- Completion of Reporting in Epic for Clinicians.
High Needs Reporting Users – Operations

**Audience: Non-clinical staff that require reporting tools to complete their daily tasks**
